

Seasonal social menus

The perfect way to eat with friends, family or work colleagues

These menus have been created to celebrate the best produce each season has to offer, sourced locally where possible. They are designed to cater for parties of 12 or more, and to introduce a social element to your meal.

Before arriving, each diner chooses their starter, main course and dessert from the seasonal menu. The main course is accompanied by 'social' bowls of potatoes and vegetables to share amongst the table – don't panic, there will be plenty!

While we have carefully crafted these menus to offer a good variety of choice, we understand that you may want to change a dish. Please talk to us if you have any specific requests.

Your party will need to pre-order their meal choices 7 days in advance.

Please ask us for the most up-to-date menu before you circulate it to your party.
